Security Mobile Patrol Services

Mobile Patrols or Security Patrol Services is a cost effective way of ensuring the security of your premises, by having a uniformed security guard attend your premises and looking for unlocked doors, open windows, signs of forced entry, vandalism and trespassing. Security Patrol is also commonly used for staff escorts, locking and unlocking of buildings, temperature checks and staff welfare checks.

Alarm Response

Alarm Responses involve an on-site inspection by an M S E Security Services security guard, who will investigate why your alarm has activated. When dispatched to an alarm response, the security guard will attend to your premises quickly and physically check the property and look for signs of a break-in or attempted break-in.

Security Guards

Our Security Guard service or Static Guard service involves a uniformed security guard staying at your premises for a set amount of time. Unlike a mobile patrol, these guards do not leave the premises. We also provide event security for functions, birthday parties and large gatherings.

Cash in Transit (Business Banking/Courier Services)

M S E Security Services can provide daily / intermittent transportation of your daily taking of any cash notes, coins, cheques to the bank securely in tamper evident security satchels. Our uniformed or plain clothed guards will pick up your deposits and provide change orders where necessary and provide receipts upon deposit / return.

Why Choose M S E Security Services

Quality Instead of Quantity

We want the passion for exceptional service to begin the very minute you call us and then this will continue out in the field day and night.

All M S E Security Services staff must show passion for the job and not just want to come to work and get paid. We want quality and passion across the entire team to meet our clients requirements day and night 24/7.

If you the client are not happy and not getting the quality service you are entrusting some companies to perform then you will be at home spending valuable family time worrying if your premises are still secure whilst you are at home with loved ones or on holidays.

Your family time is far too valuable to worry and stress about what could be happening when you are meant to be enjoying yourself.

You are the client and you have every right to expect quality service. You pay for a service and yes you expect the service you are paying for.

At M S E Security Services we would rather be a small company and have an amount of clients that we can adequately provide quality services upon every night without fail that you as our client deserve.
